PORTFOLIO: https://johnstoc13.gihub.io/Updated-Portfolio/

PROFESSIONAL SUMMARY

Website designer with a background in business management and experience creating modern, responsive websites for small businesses and leading positive change for teenagers and young adults. Extensive experience in multitasking, teamwork, communication and problem solving in a fast paced learning environment as an air traffic controller. Proven success repeatedly with accomplishments in experience, efficiency and teamwork. Looking forward to using these skills in future endeavors.

TECHNICAL SKILLS & ABILITIES

LANGUAGES: HTML, CSS, JavaScript, jQuery, Node, Inquirer, Express, JSON, AJAX, Handlebars
DATABASES: MySQL, Sequelize, MongoDB, Mongoose
TOOLS: Git, Heroku, Command Line, Bootstrap, Foundation, Moment.js, Auth0, Passport, File Stack

APPLICATIONS

TEAM BUILDER

https://github.com/johnstoc13/the-team-builders | https://the-team-builder.herokuapp.com/

- Front end design developer for a team-building app geared towards a remote workforce. Application was created with a team to help build teams, foster creativity, and strengthen culture in just 2 weeks!

- Bootstrap, jQuery, Handlebars, Auth0, File Stack, Passport, mySQL, Sequelize, Heroku

FLICK THE DECK

https://github.com/johnstoc13/Flick-the-Deck | https://johnstoc13.github.io/Flick-the-Deck/

- Flick The Deck is a fun application that combines "luck of the draw" with a faster path to movie selection based on user-selected criteria. Application is the result of a highly dynamic and cooperative team effort. I was tasked with the front end design, ensuring mobile responsiveness using Foundation CSS.

- HTML, CSS, jQuery, Foundation, external APIs, Animate.css

BURGER BONANZA

https://github.com/johnstoc13/Burger-Bonanza | https://chases-burger-bonanza.herokuapp.com/

- This project is for all the burger lovers out there! The application allows the user to create and add burgers to a menu, where they can either eat or delete them. Yummm!

- Bootstrap, Javascript, jQuery, Node, Express, MySQL, Handlebars, Heroku
